You Keep Watch

Dave Bilbrough

There's days when I struggle and nothing goes right
Like I've been forgotten and life's passed me by
Help me remember, don't let me forget
That You keep watch over me
Yes, You keep watch over me

My friends are succeeding but I feel so small
I'm anxious and fearful and done with it all
Help me remember, don't let me forget
That You keep watch over me
Yes, You keep watch over me

You're there when I'm troubled, You're there when I doubt
In the heat of the day, though I'm angry and shout
Help me remember, don't let me forget
That You keep watch over me
Yes, You keep watch over me

Through thick and thin
When I feel blue
Yes, You keep watch over me

Impoverished in spirit means open to change
But sometimes the waiting is hard to endure
Help me remember, don't let me forget
That You keep watch over me
Yes, You keep watch over me
